## 4 years to maximize your potential

The Global BBA is a **leading international degree in management and business management** (Business Administration). It is the most frequently awarded post-baccalaureate degree in the world. The four-year Global BBA is now the benchmark qualification in Anglo-Saxon countries, Europe, and Asia.

At the end of the program, you can enter the job market directly, in most cases for internationally-oriented skilled positions. You can also pursue your Master's or Specialized Graduate Program 's' studies at emlyon business school or in the best establishments in France and abroad.

These four years of study help you to put your future into perspective: acquire the necessary knowledge, develop key skills, and learn to understand your behavior in a professional environment.

Our ambition is **to offer you the most promising opportunities** adapted to your personality and potential.

## Application procedures

We will have a comprehensive assessment against the applicant based on his/her high school courses and quality, academic performance, English proficiency, digital test and interview.

- Academic performance assessment: high school transcripts
- Standard academic tests: college entrance examination, SAT, ACT, A-level, IB, AP
- English proficiency: official transcripts of TOEIC, TOEFL or IELTS
- Digital test
- Motivation letter

## Admissions requirements

It is possible to enter the program at different moments, from the first, second or third year on.

### Admission to the 1<sup>st</sup> year:

For students in their final year studying for the Notional Baccalaureate, or who have passed the Baccalaureate examination: SESAME CONCOURS

For students in their final year studying for their High School certificate, a foreign diploma equivalent to the Baccalaureate: GBBA CONCOURS

### Transfer to the 2<sup>nd</sup> year:

For students presently completing a 1<sup>st</sup> year of university studies (to be validated by 60 ECTS credits) or a diploma certifying one year of successful study at a higher level and issued by an official higher education institution.

### Transfer to the 3<sup>rd</sup> year:

For students presently completing a 2<sup>nd</sup> year of university studies (to be validated by 120 ECTS credits) or a diploma certifying two years of successful study at a higher level and issued by an official higher education institution.

N.B. Students seeking to enter the program at 2<sup>nd</sup> or 3<sup>rd</sup> year are required to have fundamentals in the field of management and a good level of English, all 3<sup>rd</sup> and 4<sup>th</sup> year courses are taught in English. The 3<sup>rd</sup> year integration is not open for academic exchange or double diploma programs.

Our Global BBA is designed to provide each student with a **broad knowledge of functional areas** (management, finance, sales, marketing, strategy, human resources, law, IT and digital systems, languages and cultures, etc.) and an ability to **analyze an organization's interconnections with its environment**, while allowing students to progressively specialize in a particular field.

The program also develops the use of managerial skills, communication techniques, and decision-making skills in a complex and changing environment.

This four-year learning path naturally prepares you to take on responsibilities in organizations operating in a global and international context.

### Global BBA (Paris | Saint-Étienne)

These four years of study help you to put your future into perspective:  
Application fees: 100 € (free for grant-assisted candidates). Tuition fees including emlyon business school lifelong membership, administrative fees, and international mobility insurance:

**the campuses**

emlyon business school has six campuses: Lyon-Ecully, Shanghai, Saint-Etienne, Casablanca, Paris and Bhubaneswar.

**Lyon-Ecully campus**

The business school's historical campus is situated in pleasant, rural surroundings just 15 minutes from the center of Lyon in the town of Ecully. The buildings, located in a large 15-acre park, provide 30,000 m<sup>2</sup> of office and teaching space. In line with the business school's digitalisation strategy, this space is under transformation, notably with the opening of the learning hub in 2015 and the 45/4 space. In 2016, the installation of the new incubator and makers' lab, in the heart of the campus, has created the first ever creativity & learning hub in Europe. Two halls of residence - the Drakkar and the Galion - house over 300 rooms and studio apartments.

**Shanghai campus**

The new Shanghai campus opened in 2017, in partnership with East China Normal University. With its 5,000 m<sup>2</sup> building, the campus is situated in the Minhang District education park, in the very center of Shanghai and close to the technology park which hosts the R&D centers of large, international firms.

**Saint-Etienne campus**

Situated 15 minutes' walk from the city center with over 9,500 m<sup>2</sup> of large, bright spaces on three levels, the Saint-Etienne campus combines the charm of a heritage-listed industrial building and rooms equipped with the very latest technology.

**Casablanca campus**

Ideally situated in a strategic location of the city - the prestigious Marina - the Casablanca campus is a new facility comprising rooms equipped with the very latest technology.

**Paris campus**

An ultra-connected and innovative site, the Paris campus is part of emlyon business school's globalization approach. The 5,500 m<sup>2</sup> Haussmann-style campus is located in the heart of Paris, next to "Gare de Lyon" train station.

**Bhubaneswar campus**

In 2018, we signed a new partnership agreement with Xavier University, a group of schools and universities with more than 300,000 students on roll. The new XAVIER-EMLYON Business School is the very first joint French and Indian educational institution. This year the new campus, for students from Asia, will welcome 200 students on two courses: a four-year Global BBA and a two-year Global MBA. By 2023, the campus will have 1,300 students, 30 professors, five programmes, a joint research centre and an incubator.
