# Why Español LCA?

## Español LCA

Spanish Language, Culture and Adaptation to University Course

An important part of the subject at the Spanish public universities is taught in Spanish. This is the reason why international students should dedicate their first year in Spain to learning the language.

While you are attending the preparatory Spanish program, Campus Spain will take care of all the procedures and formal requirements that you need to meet in order to be successfully admitted to the undergraduate or postgraduate studies.

- **Spanish: the second most-spoken language in the world**, used by 572 million people, including **477 million native speakers** (which is more than English).
- Official language in **21 countries** and one of the six official languages of the United Nations.
- Third language on the internet.
- International business language in Europe, US and Latin America.

## Intensive Spanish Course On-Campus Experience

### CULTURAL IMMERSION

30% of teaching activities during the Español LCA Course are conducted outside the classrooms: during trips, sightseeing, visits to museums, concerts, theaters, conferences, popular celebrations, academic events and many more. All these activities are included in the tuition fees.

- A custom-made program specially designed for the international students who are interested in studying in a university in Spain.
- Teaching plan follows Cervantes Institute's standards.
- Delivered by the Language Center of the University of Vigo.
- Vigo is an academic city located at the north of Spain, at the Atlantic Ocean.

## Testimonial

Advisors from Campus Spain introduced to me about Spain during my high school. They have then assist us on our application process, traveling, accommodation and admission until we settled in at Vigo.

I could hardly communicate with the locals upon arrival. After 1.5 month of Spanish lessons, I just passed my A1 Spanish exam recently and able to have some simple conversations in Spanish now. The teachers are very friendly and they give clear explanation during the lessons. Their encouragement and guidance has been helpful.

I have decided to pursue my degree in Spain in September. Because the tuition fees for my degree is highly subsidised at the pubic universities and cost of living is similar to Malaysia.
